

I listen to K-Love daily in Albuquerque. It is a blessing to the community and to me personally. It plays contemporary music that calms me, brightens my outlook on life and encourages me in my daily living. Many mornings I have heard something I needed for just that moment in my day - from one of the radio personalities, a song or a message from one of the singers or band members. I would hate to lose this broadcast in my area. I know many of my friends also listen and are blessed and encouraged. Please do not allow the LPFM stations to use the FM translators that bring K-LOVE to me and to many other listeners. Thank you for listening...and continuing to allow me to listen...to K-LOVE.
